

List of Generic Features available for all the realms

Buying and Invoicing Feature name	Feature ID
support attachment download as part of reporting API	PL-19428
Support Deletion For New to Buyer Subscription Versions	CM-4792
Content Management Reorder Rule Categories Flow	CM-4828
Catalog Replication	CF-7874
Enable Effective Date Field	CM-3233
Content Management New UI	CM-4791
Enhanced Invoice Reconciliation Manual Match View	UseEnhancedManualMatching
Support Simple Services	SINV-7030
Do not double count the schedule period	PL-14132
ScalabilityFeatures - MessageConfigurationTab	CF-7334
IntegrationEventLogging in distinct side session	PL-18383
EnablePointToPointCustomizationPublish	PL-13320
NotifyRequesterOnPOGeneration	CP-11099
LazyCreationSystemFolders	PL-15016
filter fields' default value validation during viewTemplate creation	PL-23137
Cache For ToDo ApprovableTypes	PL-16648
Set locale for MLS	PL-14560
Set locale for Push Tasks	PL-17568
Use Replicated DB if defined	UseReplicatedDBIfDefined
Faster query by removing sort constraint	SINV-5144
ImportReqWithoutOSLN	CP-1305
ScalabilityFeatures - JumboAMLVariantNames	CF-7254
ScalabilityFeatures - DistributedObjects	CF-7254
ScalabilityFeatures - NodeStatus	CF-7254
ScalabilityFeatures - NodeSingleton	CF-7254
ScalabilityFeatures - DenormalizedField Info	CF-7254
ScalabilityFeatures - AdminUserNames	CF-7708
ScalabilityFeatures - SchemaTypeMap	CF-7702
ScalabilityFeatures - TypeMapSupport	CF-7351
ScalabilityFeatures - ReplicationSourceTab	CF-7334
ScalabilityFeatures - BrowserInfoTab	CF-7334
ScalabilityFeatures - MetalayoutTab	CF-7334
ScalabilityFeatures - AuthCookieDataTab	CF-7582
ScalabilityFeatures - MERPSubscriptionTab	CF-7700
Distributed LRU Cache	DistributedLRUCache
Development realm for customers	ER-16291
Handle Form Value Decryption for Advance URLs	CF-6909
Supplier punch-in Multi Front Door	PS-139
DFS not persisting when user logs out and logs in to S4	PS-108
Compose realm-specific URLs in app code	PS-272
Use Legacy Vanity URL for SAML Authentication	PS-521
ProcurementDesk Custom Field Support	PD-1812
Initialize Cached URLs with Legacy Values	PS-704
Check Internal URL before Incoming Server URL	PS-705
Use Referrer Host For AN	PS-702
Check X-Forwarded-Host For AN	PS-714
Admin Node Front Door Fix	PS-720
Realm Switch Fix	PS-729
Respect useDefaultURL flag for default legacy URL	PS-746
Use Legacy Remote Attachment URL	PS-756
URL Host Logging for Outbound Calls	PS-788
Log realm information	PS-885
Integration Traffic Report Log	PS-1047
XFire WebService with proxy	PS-917
Content Type Detection for File Upload	PS-811
AN to S4 redirection issue	PS-1028
WS outbound attachment decryption	PS-1839
Use ETSC restriction When user logs in	PS-2002
IncludeRealmIdInBaselTab	IncludeRealmIdInBaselTab
Create realm partitions	CreateRealmPartitions
Hana Hex Engine for Vector Select Statements	BaseVectorHexEngine
Lazy Loading into Global Cache	LazyloadIntoGlobalCache
Cluster Integrity Modification	ClusterIntegrity
Replace NOT IN clause with NOT EXISTS	NOTINToNOTEXISTS
Replace OR EXISTS clause with UNION ALL	PFS-15614
Add realmId in update where clause for table partitioned by realmId	PFS-16533
ArchesNameTable Feature	ArchesNameTable
Skip saving MDS queries	CPL-10103
Control MDS publish to Arches	PL-19145
Addresses SQL changes that breaks SRS replication	SRS compatible SQL
SRS compatible SQL changes restricted only to Oracle schemas undergoing SRS replication/materializat	Reduced impact SRS compatible SQL
During a rerun, skip successfully run tasks for LateLoadDB	PL-16769
Validate variant ID in AML (CPL-9656)	CPL-9656
Enable In-Product Alerts	PL-13556
AuthCookieDataFeatureScheduledTask - Clean stale entries	CF-7582-ScheduledTask
Fix for CPL-7242	CPL-7242
Load System portlet providers using System realm	PL-11294
Remove community queue from global task node task response queue	CUP-21995
Removed set recovery task	IMS-1207
Delayed Recovery of Message	PL-19106
Enhanced third-party tax engine integration	ExternalTaxIntegrationPhaseTwo
Publish flex master data (FMD) custom fields to Arches	ArchesPublishFMDCustomFieldsToArches
Prevent Old Browser SSO Login	CPL-8300
Warn EU Admin Users About TLS Cert Expiration	CPL-8578

Strategic Sourcing Feature name	Feature ID
Enable "Disable and Purge Site" realm state	CF-7235
Handle Form Value Decryption for Advance URLs	CF-6909
Supplier punch-in Multi Front Door	PS-139
DFS not persisting when user logs out and logs in to S4	PS-108
Compose realm-specific URLs in app code	PS-272
Use Legacy Vanity URL for SAML Authentication	PS-521
Initialize Cached URLs with Legacy Values	PS-704
Check Internal URL before Incoming Server URL	PS-705
Use Referrer Host For AN	PS-702
Check X-Forwarded-Host For AN	PS-714
Admin Node Front Door Fix	PS-720
Realm Switch Fix	PS-729
Respect useDefaultURL flag for default legacy URL	PS-746
Use Legacy Remote Attachment URL	PS-756
URL Host Logging for Outbound Calls	PS-788
Log realm information	PS-885
Integration Traffic Report Log	PS-1047
XFire WebService with proxy	PS-917
Content Type Detection for File Upload	PS-811
AN to S4 redirection issue	PS-1028
EnablePointToPointCustomizationPublish	PL-13320
Create Contract in Supplier Bid Currency	UP-6528
Deactivate (Soft delete) of Line Items in CLID	CUP-18591
Enable auto amend of contract workspace from Sourcing Award	CUP-18589
SIPM To SM Auto Migration Mode	SIPMToSMAutoMigrationMode
Enable In-Product Alerts	PL-13556
Fix for CPL-7242	CPL-7242
Load System portlet providers using System realm	PL-11294
Safe template version revert	SM-13705
Mass Upload of Clauses in Clause Library	CUP-19561
During a rerun, skip successfully run tasks for LateLoadDB	PL-16769
Prevent Old Browser SSO Login	CPL-8300
Warn EU Admin Users About TLS Cert Expiration	CPL-8578
Warn Mobile Device Users About AW6 Not Yet Officially Supported	CPL-8698
Use Replicated DB if defined	UseReplicatedDBIfDefined
Multi-Currency Support on Custom Reportable Fields	CF-6384
AccessRuleInClauseConvert	AccessRuleInClauseConvert
ScalabilityFeatures - MessageConfigurationTab	CF-7334
IncludeRealmIdInBaselTab	IncludeRealmIdInBaselTab
Create realm partitions	CreateRealmPartitions
Lazy Loading into Global Cache	LazyloadIntoGlobalCache
Base Vector Lazy Loading	BaseVectorLazyload
Replace NOT IN clause with NOT EXISTS	NOTINToNOTEXISTS
Replace OR EXISTS clause with UNION ALL	PFS-15614
Add realmId in update where clause for table partitioned by realmId	PFS-16533
Set locale for MLS	PL-14560
Tiles Usage Tracking	UP-203-1
Remove community queue from global task node task response queue	CUP-21995
Removed set recovery task	IMS-1207
MasterDataRealmBatchingFeature	CPL-8996
Skip saving MDS queries	CPL-10103
Support Formulas in CLID	UP-6896
Extract CLID Content	UP-4335
Search Sourcing Requests in DB by title	SS-18680
Drag And Drop	UP-3330
Display changes made to line items in CLID	UP-4951
WS to create CLID using XML	UP-5510
Cumulative Redlining Track Changes	UP-6890
Download Approval History as PDF	SCONTR-131
Land Realm on node in correct community	SupplierframeLanding
Enable Change Request	ARI-6530
Dedup obsolete arches work items	CUP-19673
Allow Full and Termination Amendment for Contract Workspace in Expired status	SC-8135
Recurrence Phases incorrectly changing after template upgrade.	CUP-23543
Flex Auth custom fields' name change from dynamic to storage	ARE-4047
AuthCookieDataFeatureScheduledTask - Clean stale entries	CF-7582-ScheduledTask
New Supplier(s) field in Sourcing Projects	CF-2546
Customize logo and footer in event messages	CF-5317
Validate variant ID in AML (CPL-9656)	CPL-9656
ScalabilityFeatures - JumboAMLVariantNames	CF-7254
ScalabilityFeatures - DistributedObjects	CF-7254
ScalabilityFeatures - NodeStatus	CF-7254
ScalabilityFeatures - NodeSingleton	CF-7254
ScalabilityFeatures - DenormalizedField Info	CF-7254
ScalabilityFeatures - AdminUserNames	CF-7708
ScalabilityFeatures - SchemaTypeMap	CF-7702
ScalabilityFeatures - TypeMapSupport	CF-7351
ScalabilityFeatures - ReplicationSourceTab	CF-7334
ScalabilityFeatures - BrowserInfoTab	CF-7334
ScalabilityFeatures - MetalayoutTab	CF-7334
ScalabilityFeatures - AuthCookieDataTab	CF-7582
ScalabilityFeatures - MERPSubscriptionTab	CF-7700
Distributed LRU Cache	DistributedLRUCache
Do not double count the schedule period	PL-14132

Warn Mobile Device Users About AW6 Not Yet Officially Supported	CPL-8698
AWFor Large Data Fix	CPL-8238
RichTextEditor Fix: Remove empty spaces between tags	CPL-6992
AWTimeZone JS Fix: Use Browser Time Zone JavaScript API	CPL-9717
Drag and Drop Attachments for all Documents	UP-5414
Tiles Usage Tracking	UP-203-1
PQ Queries use bind variables	PL-18251
Enable "Disable and Purge Site" realm state	CF-7235
Use DB Distinct For Search	PL-16435
MasterDataRealmBatchingFeature	CPL-8996
HANA realm for customers	S4Lite
Feature Toggle for Guided Buy	GB-193
Disable DTDs external Entities for SAML processing	PS-2126
Set default locale for HTTP request-reply tasks	PL-21494
Enable pagination for Async request	PL-17484
Request Content-type and file extension matching	PS-2321
Content Management Reorder Rules Flow	CM-4290
Metadata derived field size	PL-22096
Optimizing Durable Events	PL-5264
Encryption Manager	PS-402
Support for site-level cache of Supplier Management supplier & location responses	OPCCC-837
Improve usersNotInGroup query in OrgGroupUpdater	PFS-19862
Condition-based Invoice Exception Type Filtering	SINV-6824
Service level authentication	PL-18208-MDNI
RealmPortedFeature	CF-6986
Cloud integration gateway (CIG) access from SAP Ariba applications	PL-10635
SvcMgt Service Management Realms	PL-20175
Upstream/Suite Integration mobile activation support	UP-3760
Disable Test Realm Emails	PL-21876
Base Vector Lazy Loading	BaseVectorLazyload
Add hint to query in addUsersToGroups method of OrgGroupUpdater	PFS-20273
Allow Receiving without deducting tax even when TLC is enabled	CP-13484
Parameter API	PL-21104
Rename Field's label if configured during JSON schema generation	PL-23849
Customer Site API	PL-9651
Restore approvable when editing and viewing same approvable type	PL-24375
MDS - Child Realm As Standalone	MDS - Child Realm As Standalone
Continuous Migration to HANA	Continuous Migration
MDS - Push Master Data to HANA	MDS - Push Master Data
Migrate Master Data to HANA	PL-12514
Object and Vector Statistics	ObjectStatistics
AML upload with diff review	PL-23171
Header fields and attachments integration for quick sourcing from requisitions	CP-12568
POD Processor Information	PD-2000
HTTP Channel - KeepAlive bytes	PL-17908
Add Plant specific custom fields	DMS-10531
ETSC-GBaaS	PL-21037
Enable Open Api Access	CM-5072
Delegation and CanActAs Sync	PL-26284
Implement full URL changes for approval APIs	PL-22170
Re-validate select attributes	PL-21812
Support delegate feature for External Approval API and document	PL-22171
Approval API	PL-19247
ConfigurationMigration	PFD-10501
Forms support edit approval document	PL-21095
Enable Replication Status API Feature	PL-25539
CXML DTD Persistence	PL-24104
Ability to detect duplicate Deferred Notification	PL-26968
Persisted Email Purge Enhancements	PL-27241
Clear the processing node for composing emails enhancement	SINV-10641
Disable validation of Bill To for invoice accounting mass edit	PL-28018
Identify and drop obsolete indexes	PL-26953
RichTextEditor Fix: DOMPurify the contents before display	PS-3511
Use File Fortification Library	PL-27449
Recent User Choice Performance	PL-23240
Choice object match using internal value	

Upstream mobile support	UP-1957
Exclude questionnaires from auto start registration	SM-10473
Development realm for customers	ER-16291
HANA realm for customers	S4Lite
Supplier Risk Issue Tracking and Remediation	SR-IssueManagement
Upstream/Suite Integration mobile activation support	UP-3760
Analysis remote source system check	ARE-4937
CXML Internal Attachment	CXML Internal Attachment
Use Header Referrer to return to AN	PS-730
Manage Project Owners	ARI-5554
Score Bands for sections in a Modular Questionnaire	SM-SectionLevelScoreBands
AWFor Large Data Fix	CPL-8238
RichTextEditor Fix: Remove empty spaces between tags	CPL-6992
AWTimeZone JS Fix: Use Browser Time Zone JavaScript API	CPL-9717
Drag and Drop Attachments for all Documents	UP-5414
Cache For ToDo ApprovableTypes	PL-16648
Addresses SQL changes that breaks SRS replication	SRS compatible SQL
SRS compatible SQL changes restricted only to Oracle schemas undergoing SRS replication/materializat	Reduced impact SRS compatible SQL
No New Oracle realm for customers	S4Lite-DisableOracleRealmEnablement
Supplier Risk Realm	SR-Realm
SIPM To SM Migration Mode	SIPMToSMIMigrationMode
Re-validate select attributes	PL-21812
ActiveX Removal for Reports	CUP-17662
Assembled PDF for activex removal	CUP-14775
SM Self Registration	SM-2861
SM Project Template Upgrade	SM-3066
Request Additional Information Enhancements	SM-3492
Editability option for an RFX document	SM-3814
Factory support in SLP	SM-8814
External Task	ExternalTask
MasterDataPublishMDSTaskReRun	PL-10621_2
SM Admin - Version 2	SM-5663
MasterDataServiceFeature	CF-2756
Master Data Integration	15s1-SRC1501
Set locale for Push Tasks	PL-17568
LazyCreationSystemFolders	PL-15016
MDS - Child Realm As Standalone	MDS - Child Realm As Standalone
Scoring and Banding evaluation for a Modular Questionnaire	SM-MQScoringAndBanding
Delayed Recovery of Message	PL-19106
WS outbound attachment decryption	PS-1839
Control MDS publish to Arches	PL-19145
IntegrationEventLogging in distinct side session	PL-18383
SAC check access control for permission Api	ARE-4902
PQ Queries use bind variables	PL-18251
Encode auth cookie using JavaUtilBase64	PS-1894
Escalation Clause Management	CUP-15725
Support Commodity Escalation	UP-3370
Mass upload document(s) to multiple contract workspace	CUP-23998
Editing published event using excel import	SS-3451
Enforce team access control on envelopes	CUP-20431
Relations entries fields	OPCCC-483
View of contracts associated with a particular Commodity escalation clause.	CUP-22960
Display docusign document signers status	SC-8134
Enable Custom Sender Names for Questionnaire Emails	SM-18117
Analytical Reporting API Phase 2	CUP-19399
Use ETSC restriction When user logs in	PS-2002
Cluster Integrity Modification	ClusterIntegrity
Supplier Quality Check	ARI-6732
Risk Normalized Score	ARI-6706
Supplier Profile Engagement Enhancement	ARI-6695
Supplier Risk Inactive Suppliers	ARI-6753
Disable DTDs external Entities for SAML processing	PS-2126
Set default locale for HTTP request-reply tasks	PL-21494
SR Financial Third Party Provider for Dnb	ARI-7087
Request Content-type and file extension matching	PS-2321
Engagement Request Control Details Report	ARI-5476
Encryption Manager	PS-402
Add Error or Success Details from ERP	SC-7668
Advanced Pricing Line items renewal notification	CUP-22958
Configuration of custom fields for Article Master	SSR-697
Assign Multiple Values to Different Matrix Items	SSR-831
Send Bid Currency via External Approval API	SS-12076
SM Template Upgrade Validation	SM-14184
Metadata derived field size	PL-22096
Support envelope bidding with alternative bids for lots and service items	SS-13565
Support Alternative for Material LineItem	SS-11503
Service level authentication	PL-18208-MDNI
Consume Rapid Ratings API v2.0	ARI-8240
SAC translation API support	ARE-4330
Design changes to CleanupAnalysisLoads	ARE-208
RealmPortedFeature	CF-6986
Sourcing - Complex Service Specification and Integration	UP-18784
Ability to continuously sync fields between project and document	OPCCC-620
Add Missing Approvers	SM-4935

Send Alternative Bids via External Approval API.	SS-12077
Enable pagination for Async request	PL-17484
Parameter API	PL-21104
Registration Import Performance Enhancements	SM-8445
ETSC-GBaaS	PL-21037
Customer Site API	PL-9651
Registration update phase enhancement	SM-11558
Registration update phase reminder email enhancement	SM-16802
Contracts Integration to S4 Hana through CIG - IES Initiative	SC-9154
Rename Field's label if configured during JSON schema generation	PL-23849
Analysis StatD Metrics	ARE-32
SR Sustainability third party provider	ARI-7099
Append Line items from Sourcing Award in a Contract Workspace	UP-3346
Enable Registration End Date Reminder Email Templates	SM-18305
Restore approvable when editing and viewing same approvable type	PL-24375
Continuous Migration to HANA	Continuous Migration
MDS - Push Master Data to HANA	MDS - Push Master Data
Migrate Master Data to HANA	PL-12514
SvcMgt Service Management Realms	PL-20175
Add Questions from Sourcing Event as Dynamic Contract Terms	SSR-833
Change Currency After Bidding	SSR-837
Object and Vector Statistics	ObjectStatistics
Enable Splunk friendly logging	CUP-18090
Allow for selection of multiple plants during matrix creation	SSR-835
Provide a product questionnaire for each article/item	SSR-796
Implement full URL changes for approval APIs	PL-22170
HTTP Channel - KeepAlive bytes	PL-17908
Support delegate feature for External Approval API and document Approval API	PL-22171
AML upload with diff review	PL-23171
support attachment download as part of reporting API	PL-19428
Restrict final approval until issues complete	ARI-8045
Bid Comparison Report	SS-10292
Delegation and CanActAs Sync	PL-26284
Last Published Date for Contract Workspace	SC-8255
Downstream Contract ID in CLID Exports	CUP-18593
Include OrganizationID in Supplier Chooser	SS-12161
Approvers view RFX draft with changes	SS-12890
Excel Bidding Improvements	SSR-1127
Optimizing Durable Events	PL-5264
Configuration Migration	PL-19247
Mass Invite Async Processing	SM-11882
Disable CLID autosync during contract buyer integration	SC-7960
Enhancements to the engagement and engagement task lists	ARI-9015
filter fields' default value validation during viewTemplate creation	PL-23137
Task table enhancements on ER details page	ARI-6897
Enable pricing condition for basket lot.	DMS-9152
Sourcing MDS Integration	DMS-10349
Simple RFX to use Sourcing Project Integration	DMS-11179
Support ranking for pricing alternative bid	SS-13671
Show the latest additional info date and comment	SM-18463
SM Project Status in Supplier Questionnaire View	SM-18459
Supplier Request key customer asks and adoption gaps - Phase 1	SM-12587
Enable Registration Post-Registered Invitation Email Templates	SM-8960
Enable SM Reports Link	SM-19071
Strategic Contract Open Api's for contracts workspace creation	SC-9315
Strategic Contract Open Api's for Document Management	SC-10441
Sourcing Event Open API	SourcingEventOpenAPI
Sourcing Surrogate Bid Open API	SourcingBidOpenAPI
Phase1: Central Contract Integration to S4 Hana through CIG - IES Initiative	SC-10438
Request and check for attachments in supplier's email responses to message board topics	SC-10573
Contracts Item Category Integration to ERP	SC-8444
Support Multiple Currencies in Alternative Bids for Services and Lots	SS-12731
Multiple Currencies in Alternative Bids	SS-11642
Search Suppliers by OrganizationID in Supplier Chooser	SS-12960
Five Star Rating	SS-14071
ACL's for editing specific Content	SS-14527
Email bidding with Standard Bidding excel	SS-13636
Feature Toggle for Guided Buying Sourcing	GB-171
CXML DTD Persistence	PL-25539
Enable Replication Status API Feature	PL-21095
Supplier Request Create Enhancements	SM-Perf-Request
Questionnaire Submit Performance Enhancements	SM-Perf-Ques
Task Action Performance Enhancements	SM-Perf-Task
Table Support in Assembled Documents	SSR-799
Persisted Email Purge Enhancements	PL-26968
Clear the processing node for composing emails enhancement	PL-27241
Remove use of OpenCPU from Risk	ARI-6824
Cloud integration gateway (CIG) access from SAP Ariba applications	PL-10635
RichTextEditor Fix: DOMPurify the contents before display	PL-26953
Recent User Choice Performance	PL-27449
Choice object match using internal value	PL-23240
Identify and drop obsolete indexes	PL-28018
Use File Fortification Library	PS-3511
Asynchronous registration project creation	SM-20144
